BioScrip Supports the Toys for Tots Fund Drive and Collection for Second Year

December 10, 2014 at 6:35 PM EST

Drop your toys off at any BioScrip company location

ELMSFORD, N.Y., Dec. 10, 2014 /PRNewswire/ -- BioScrip, Inc. (NASDAQ: BIOS) today announced that it is supporting the Toys for Tots fundraising and toy drive for the second year. The BioScrip family of companies treats thousands of patients across the country every day, providing intravenous therapies in alternate settings that help many avoid hospitalization or readmission. Since many BioScrip infusion patients are children, supporting the Toys for Tots program has been the perfect holiday giving project. Last year BioScrip contributed \$25,000 to the Toys for Tots national campaign, in addition to collecting hundreds of toys for children in need. In its second year as a National Corporate Partner, BioScrip will make a donation for every patient started on service during the holiday season and has pledged a total possible contribution of \$50,000 to Toys for Tots.

President and CEO of BioScrip, Richard Smith, described the excitement as he announced the company's holiday program, "BioScrip employees love to give back to the communities in which they work and do so every day. This initiative was such a great success last year, employees were very happy to bring it back. In fact, our companies were so engaged with this effort last year that we easily exceeded our fundraising goal, so we were able to double our pledge amount this year." Smith continued, "The Toys for Tots program is an excellent opportunity to build lasting relationships with local healthcare communities and raise awareness of illnesses affecting infusion patients."

The BioScrip companies will collect toys to be delivered to Toys for Tots for distribution. For a list of BioScrip companies or to find your local branch, visit bioscrip.com.

About BioScrip

BioScrip, Inc. is a leading national provider of infusion and home care management solutions. BioScrip partners with physicians, hospital systems, facilities-based providers, healthcare payors, and pharmaceutical manufacturers to provide patients access to post-acute care services. BioScrip operates with a commitment to bring customer-focused pharmacy and related healthcare infusion therapy services into the home or alternate-site setting. By collaborating with the full spectrum of healthcare professionals and the patient, BioScrip provides cost-effective care that is driven by clinical excellence, customer service, and values that promote positive outcomes and an enhanced quality of life for those it serves. BioScrip provides its infusion and home care services from over 75 locations across 29 states.
